WORK EXPERIENCE

Jr. Software Engineer

T.E.J. Center Pvt. Ltd.

Kupondole, Lalitpur

Jan 2026 - Present

- Worked on mobile application development by building features, fixing bugs, and improving overall app performance and usability.

Software Engineering Fellow

TEJ Fellowship

Kupondole, Lalitpur

Jun 2025 - Dec 2025

- Built a full-stack web app using React and Node.js, working on UI components, backend APIs, and database integration.
- Collaborated in a team-based development environment using a monorepo structure, contributing to shared codebases, feature development, and debugging workflows.

Beta Microsoft Student Ambassador

Microsoft

Remote / Nepal

Sep 2023 - May 2025

- Mentored students and conducted interactive, hands-on sessions focused on challenge-based learning activities on-campus, supporting practical skill development and engagement.

SKILLS

Technical Skills: JavaScript, React, Node.js, PostgreSQL, MongoDB, Python, HTML, CSS, REST APIs, React Native

Tools: Git & GitHub, Docker, Redis, Kafka, Postman, Figma

Soft Skills: Problem-solving, Collaboration, Decision-making, Communication

Languages: Nepali (native), English (proficient)

PROJECTS

Mailchimp RAG Chatbot

- Built a RAG-based chatbot using Node.js and LangChain to automate Mailchimp support, implementing hybrid search (BM25 + Semantic) for accurate and context-aware document retrieval.
- Added conversational memory for multi-turn interactions and developed a react interface to visualize queries and responses.

Movie Ticket Booking System

- Designed and implemented a scalable backend for movie browsing, booking, and payments using redis-based locking and kafka to handle high concurrency.
- Integrated Stripe for secure payment processing while ensuring consistency and reliability in the booking workflow.

LEADERSHIP EXPERIENCE

University Lead

CS50xNepal

Nepal

May 2024 - May 2025

- Mentored 60+ students in hands-on projects and guided 100+ participants at X-Hack3.0, a national level CS50AI hackathon, in developing AI-driven solutions.
- Organized multiple mini-hackathons, technical workshops, and the CS50x Hackathon, fostering student engagement, problem solving and project execution.

President

Electronics & Communication Engineering Student Society

Dharan

May 2024 - May 2025

- Contributed to the organizational growth by organizing different tech events, raising fundings, and managing resources efficiently, ensuring financial sustainability and asset continuity for the next committee.
- Led 5 major technical events and collaborated with five student societies to deliver hands-on training, student-led projects, and skill-building programs across software and hardware domains.

Github Field Day Nepal

National Tech UnConference

Kathmandu, Nepal

Nov 2024

- Engaged with tech leaders to discuss technical challenges, shared best practices, promote inclusivity, foster collaboration, and support sustainable student-led tech initiatives.

EDUCATION

University of Helsinki, Finland

Jun 2025 - Dec 2025

FullStackOpen

Certificate

- Completed a comprehensive full-stack web development course covering React, NodeJs, Express, PostgreSQL, and modern web practices.
- Applied technical expertise to build scalable web applications through hands-on projects.

Tribhuvan University, Institute of Engineering(IOE), Eastern Regional Campus

Bachelors in Electronics, Communication and Information Engineering

Dharan

May 2021 - May 2025
